RICHARDSON HIGH SCHOOL

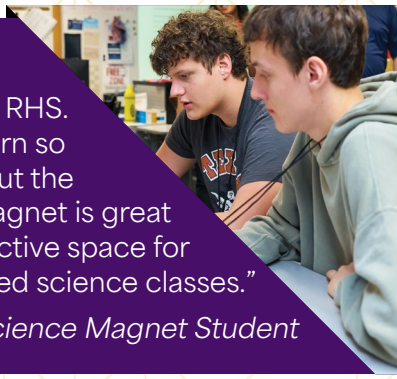

The Arts, Law, and Sciences Magnet

Established in 1987, the Arts, Law, and Sciences Magnet is an integrated part of Richardson High School, offering specialized magnet curriculum embedded in the traditional high school experience. RHS magnet programs, which align with RISD's junior high school magnet pathways, have evolved to focus specifically on the arts, law, and sciences. Admission is based on an application process.

"The Law Magnet program at RHS has prepared me for the future in so many ways. Not only have I learned about all the things that make up our laws and rights, but Mr. Bufkins' class has also taught me how to be prepared and responsible when it comes to making decisions, because decisions have rewards or consequences. I will forever be grateful to the RHS Law Magnet program and Mr. Bufkin for showing me how to be responsible, reliable, hardworking, and most importantly how to be an amazing citizen overall!"

Yanira Salguero, RHS Law Magnet Student

"Taking AP biology as a freshman was one of the best decisions I've made at RHS. Because of Mr. Bivins, I was able to learn so much in a short amount of time without the prerequisites needed. The Science Magnet is great because I don't have to take up an elective space for my magnet; it's attached to my required science classes."

Zoe Morse, RHS Science Magnet Student

"As part of the Art Magnet, I have met new people who think and learn like me while experimenting with different media. I have definitely grown as an artist and become more comfortable in my art-making. I have also grown more confident overall. Through the Art Magnet, I have had opportunities to step outside of my comfort zone by displaying my artwork publicly and entering competitions for recognition and rewards. I have also grown through communication with my peers and gained experience in public speaking. The Art Magnet is an experience I would recommend to anyone. Even sitting through one class, it is easy to see the strong community we have created and how we support one another."

Patrick Redding, RHS Studio Art Magnet Student

Magnet Programs:

- **Communication Arts**
- **Computer Science**
- **Culinary Arts**
- **Law**
- **Manufacturing**
- **Photography**
- **Robotics**
- **Science**
- **Studio Art**

Visit our school website to learn more about RHS's clubs, organizations, and athletic programs.

RICHARDSON HIGH SCHOOL
Points of Pride

- **'A' Rated Campus:** RHS has earned an 'A' rating from the TEA for two consecutive years (24-25 and 25-26).
- **Nationally Recognized Programs:** The magnet programs at RHS have earned national recognition. RHS is designated as an AVID National Demonstration School, and our award-winning fine arts programs have earned state and national accolades.
- **STEM Competition Success:** Students in the magnet programs have achieved top honors in Science, Technology, Engineering, and Mathematics (STEM) competitions, including being named SkillsUSA National Robotics Champions and National Battlebots Champions.
- **TEA Academic Distinction Designations Campus**
- **High College Readiness:** A significant majority of graduates earn the Distinguished Level of Achievement under the Foundation High School Program, indicating a strong emphasis on college and career readiness.
- **Real-World Connections:** Students engage in real-world experiences by working with professionals in their fields who bring practical knowledge and professional networks to the classroom.
